

Double Braid Polyester Rope

- Tops among all popular fibers for weathering characteristics.
- Excellent abrasion resistance and strength, wet or dry.
- Designed to withstand UV rays and many common chemicals.
- High strength, low stretch and torque-free.
- Features:
 - Holds up better than nylon when exposed to sunlight.
 - Excellent strength and abrasion resistance.
 - Highly resistant to rot and deterioration.
 - Suited for towing and anchor lines.

Diameter (in)	Carpenter Stock No.	Length (ft)	Tensile (lbs)	Weight (lbs)	Color
